Dearest Daughter of mine,

Many things are happening within your world and ours. There are great and wonderful things happening on the Earth with creation.

As we get closer to the 'end" we see many humans creating peace and love and coming together. The balancing of the Male/Female, God/Goddess is still out of balance and many Male/God parts are feeling this. When the financial structure was created it began with men believing that they were the only ones who had the power to control it, and women were not permitted to know very much about it at all. Today you are seeing that belief system being torn away. Many energy modalities can help with the belief system in man accepting the wisdom of the Wise Women. This wisdom is not only in words but is part of their make up. They are naturally the Mothers, the Nurturers. They are the ones that know true love. From their wombs comes life. They are the fertility of the Earth. They have not been shown this, and some women do not even know it yet.

Of course, men do not want to hand over their power to women, but it should be an acceptance of recognising the role of women today. Especially places like Turkey.

Each one of course has to create their own reality. It has to start within. Sometimes it is good to go back to basics.

Last night you had a Crystal Dream. In this dream, you found in the ground an Amethyst Cave. This was the first time that you have dreamt of this type of crystal. It represents the Spiritual growth of you. Mother Earth was offering you a gift for what you have done in the past and will be doing.

Your work in the beginning was for mankind, and in that you did very well. Ra-Sheeba is for the spiritual growth of mankind. Now, your work is for the Earth and this is where your connection to Chris comes in. She is the Dragon representative for the healing of Mother Earth. She was within her full power when she was on the property doing ceremony. You ask her was this not so? Georgie (Ra-Sheeba Master) is also a great part in this and will be doing healing of Mother Earth in Cornwall.

In New Zealand you, Chris and Bev will be doing much for Mother Earth. You 3 are Earth, Fire, Air/Water. (Because you my dear, carry the qualities of both Aquarius and Pisceans) You will be guided to places that will require your combined energy.

You will only need to form a circle and send energy from the Universe into the Earth as you will be the conduits and the anchors. It would be good to carry Amethyst over to New Zealand and where you do ceremony bury the piece of Amethyst.

Cleanse the Amethyst before you leave. Do Ceremony over them with you 3 and wrap them up ready for the visit to New Zealand.

In the dream you were in the desert. The sands uncovered the crystals. Sand represents time and the opening of the sand to show the crystals means that the time has come.

Sarah (my daughter) is also connected to the Earth and she will also be with you at The Crystal Springs (Broken Hill). She will be able to connect to the Earth at her special place. This is about being conduits. The Crystal Springs is a very powerful portal that is Goddess ground.

Trudy is EARTH

Lorraine is WATER

You and Penny are GODDESS

Shahara is AIR

Sarah is FIRE

This combination is very powerful. You will form a circle. The energetic imprint of the Star of David is already there. The Portal is already open. You will have a fire, the crystals for New Zealand and Water in a crystal bowl. You will do Dragon Voice because this has not been done at the Crystal Springs. You will take clap sticks to call in the Ancient Ones. You will burn Grandfather Sage.

You will celebrate the Earth, Moon and Sun.

Prepare yourselves, cleanse yourselves in Body, Mind and Soul.

Be ready for The Crystal Springs in May,

Be ready for New Zealand in September,

Be ready for Turkey in November.

This is a 6 months Spiritual Journey.

You will be looked after spiritually! You will be looked after financially! You are dearly loved! You are never alone! Hissing Swan is within you as well.

Pen Gough
