

## CHANNELLING 5 April 2007

Dearest One

You have been directed to write this down as this is how we all communicate with you. Our beloved Pen Gough, who is with you always protecting you and guiding you. Myself, whom you have seen for a very short and brief encounter.....yes, Zeigel.

Now, the New Energy that you desire to receive is certainly part of and from the original Energy that was meant for Mother Earth. In creation Mother Earth was established first. This being the centre of the grid of the Universe. This was created to hold, envelope, and house the Beings that would come forth from God as a free expression. Now God being Love has existed since time began. God has no beginning and has no end. God is in everything and apart from God there exists no other. You, dear One, just as we are part of God. The spark within your heart centre is the part of God that wants to feel, live, express. This past years to be felt and years to experience. This is why there is the expression "everything your heart desires". So you are beginning to understand where we are going with this.

There is a root DNA that is the basis for this. This root DNA holds all the strands together and this is the prime one.

For this to be lit up – enlightened we will say, there has to be energy set. This is part of your root DNA but in most 3D humans it has been dormant.

How can it be activated you may ask?

This is where the New Energy comes in. The Ra-Sheeba, along with other modalities, has been preparing many for this time. When one comes from the Heart Centre, when the Thymus along with the spark within the Heart has made appropriate changes, then the grid of Mother Earth will send forth much energy that she has been storing for millenniums.

You only have to ask and this will come. This is what you have done and will be given.

A new set of symbols will be given and activated and you will receive these very soon.

At the moment nurture your heart centre in preparation for this to occur.

You are dearly loved and we wash your fee.

May the God of Love bless you and watch over you all the days of your life.

Zeigel
