

CHANNELLING 13 October 2007

Dear One

We sit here within your energy field and we feel what you feel. We of course can see the outcome of your actions where you cannot. But we do not judge as it is your journey.

This we can say – You have freed much on this plane and many others.

The releasing of the fragment of Kiya was one of the greatest feats that you have accomplished in this incarnation.

In all truthfulness my dearest daughter, we did not expect this and we do not know what you can accomplish because this was one of the greatest.

The trip to Uluru will be one of great achievements. It will be “[Rainbow Dragon Dreaming](#)”

You will be clearing long held karma and activating the Rainbow Dragon Grid lines.

The Rainbow, the Aboriginal, the Australian, the Land – we are all one!

We will unite and follow the grid lines – the singing lines!

The Dragon voice will enter the lines and open up vortexes. The sleeping dragon has not been awakened for a very long time. Now it is time!

It is time and you will be the one to awaken the Rainbow Dragon. This was established at the creation of Mother Earth. The electro magnetic grid that was established was connected between crystal beds.

The sleeping dragon will awake!

When this happens it will cause the karma of years gone by to be activated and those of the same vibration will transmute this karma.

Mother Earth is changing. You will not recognise her!

Can you imagine years and years of refuse congregating on the earth? This refuse must be released!

You are dearly loved
Pen Gough
